# Athearn® Genesis® SD70M-2

To add a SoundTraxx Tsunami2 Digital Sound Decoder to your non-sound SD70M-2 model (January 2010 – 2017 models), you'll want to install a TSU-PNP EMD decoder.

Since 2009, Athearn has provided the option of purchasing some of their models equipped with Tsunami sound. If you have an SD70M-2 model without sound that you would like to upgrade, purchase SoundTraxx P.N. 885013. This board is designed to simply replace the factory PCB that supplies power to the locomotive. **You can complete the installation in an hour or less with no modification required to the model!**

## Tsunami<sup>2</sup> The Sound Upgrade

SoundTraxx Sound Decoder  
SoundTraxx Speakers  
SoundTraxx Accessories
