Athearn® Roundhouse® Old Time 2-8-0 Consolidation

To add a SoundTraxx Tsunami2 Digital Sound Decoder to your non-sound Old Time 2-8-0 Consolidation (announced in July 2007), you'll want to install a TSU-1100 Steam-2 decoder.

Since 2009, Athearn has provided the option of purchasing some of their models equipped with Tsunami sound. If you have an Old Time 2-8-0 Consolidation model without sound that you would like to upgrade, purchase SoundTraxx P.N. 884006. This board is designed to simply plug into the factory PCB that supplies power to the locomotive. **You can complete the installation an hour or less with no modification required to the model!**

Tsunami² The Sound Upgrade

SoundTraxx Sound Decoder
SoundTraxx Speakers
SoundTraxx Accessories
