Con-Cor™ Galloping Goose

To add a SoundTraxx Tsunami2 Digital Sound Decoder to your non-sound Galloping Goose model (announced in January 2004), you'll want to install a TSU-1100 Baldwin and Others decoder.

If you have a Galloping Goose model without sound that you would like to upgrade, purchase SoundTraxx P.N. 885004. **You can complete the installation in one to two hours with no modification required to the model!**

Tsunami² The Sound Upgrade
