

InterMountain Railway Co. Cab Forward

To add a SoundTraxx Tsunami2 Digital Sound Decoder to your non-sound Cab Forward model (announced in July 2008), you'll want to install a TSU-1100 Steam-2 decoder.

If you have an AC-8, AC-10, AC-11, or AC-12 Cab Forward model without sound that you would like to upgrade, purchase SoundTraxx P.N. 884006. **You can complete this installation in one to two hours with no modification required to the model!**
