

Kato
C44-9W & AC4400CW
(Newer Releases)

To add a SoundTraxx Tsunami2 Digital Sound Decoder to your non-sound C44-9W or AC4400CW model (announced in July 2008), you'll want to install a TSU-2200 GE decoder.

If you have a C44-9W or AC4400CW model without sound that you would like to upgrade, purchase SoundTraxx P.N. 885006. **You can complete the installation in less than one hour with no modification required to the model!**

Tsunami²
