

Kato SD40-2 (Mid-Production)

To add a SoundTraxx Tsunami2 Digital Sound Decoder to your non-sound SD40-2 model (announced in 2005), you'll want to install a TSU-2200 EMD decoder.

If you have a SD40-2 model without sound that you would like to upgrade, purchase SoundTraxx P.N. 885005. **This installation can be completed in less than one hour with no modification required to the model!**
