

Technical Note #25

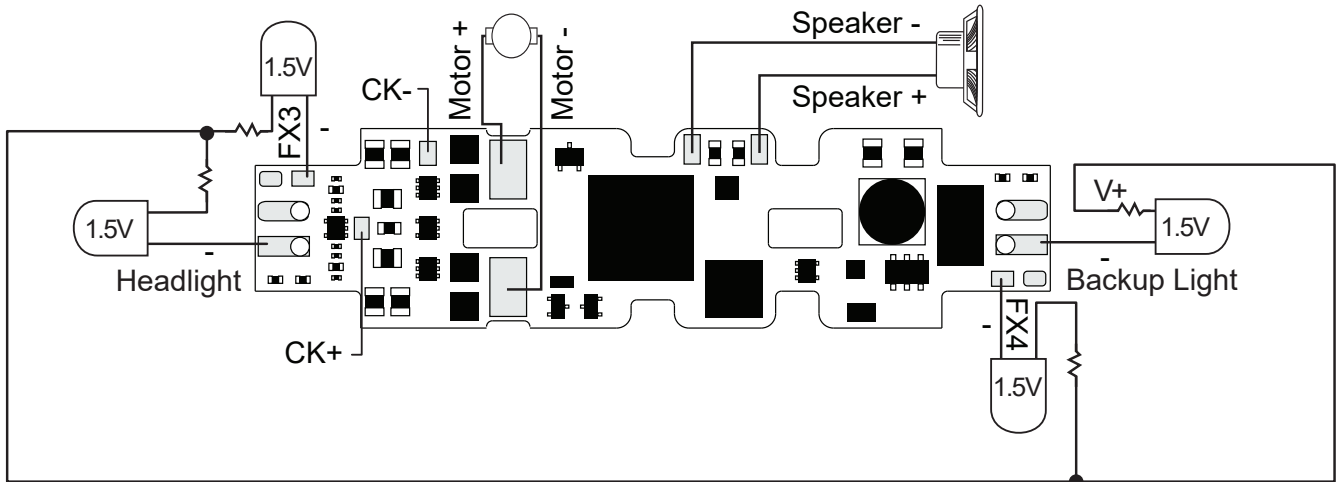

Wiring the TSU-KN1 with 12V Bulbs or 1.5V Incandescent Bulbs

The TSU-KN1 is designed with 4 LED friendly function outputs making external resistors unnecessary when using LEDs.

Wiring the TSU-KN1 with 12V Bulbs:

Wiring the TSU-KN1 with 1.5V Incandescent Bulbs:

⚡ Resistor

Note: Select a resistor value that is appropriate for the bulb and operating voltage
