64	Maximum Motor Voltage	180	1.275	Brakes	9			
116	Moving Sound Scalar	100	1.299	Generator	16			

Note:

* **CV 29 | Analog Mode Operation:** Analog Mode (DC operation) is not enabled by default. To activate the sounds and lights on a DC layout, add 4 to the value in CV 29.

* **CV 33-46 | Function Mapping/Default Assignments:** This product uses SoundTraxx Flex-Map Function Mapping technology to support easy mapping of functions to any key on your throttle. This technology also supports 28 functions supported for expanded operation and additional features. NMRA function mapping CVs (33-46) are defaulted to a value of 0 from the factory and mapping is accomplished with indexed CVs 1.257-1.311. Please reference the table for supported effects and associated function key assignments. For more information about Flex-Map Function Mapping, refer to Tsunami2 Digital Sound Decoder product documentation.

Speed Table Default Values

CV	Value	CV	Value	CV	Value	CV	Value
67	9	74	73	81	137	88	200
68	18	75	82	82	146	89	209
